

BUSINESS PROFILE

Registration #: 2018/052419/07
BB-BEE LEVEL 1

BACKGROUND

We specialize in construction, waste management and security. The company was in 2018 by a young bright entrepreneur with a view to provide cutting edge technology and innovation which meet the specifications and quality expected by clients.

We aim at becoming the leader in construction, safety and waste management by producing great solutions to environmental issues we facing today with the knowledge I've gained throughout working with one of the best construction and waste companies

We recently ventured into construction and have provided the following service in around mines:

- Refurbishment of offices
- Constructed 400m walkway
- Supplied and installed access control systems
- Supplied construction equipment MRRT
- Site clearance and fencing at Phola coal for Anglo American

MISSION

Develop long term mutual business relationships to enhance our clients profit objectives

To influence change and a better tomorrow

“

Humans are responsible for taking care of the environment. Protecting the environment would be an act of fulfilling their compulsions.

VISION

To become leaders in the industry and empower previously disadvantaged youths to partake in it
